

CNet Training Certification Logo Guidelines

This document has been created as a guide to the usage of the associated CNet Training brands as listed below in relation to individual certifications gained by learners.

In adhering to these simple rules and guidelines we can ensure that CNet Training is presented in a coherent and consistent way and learners can benefit from the association with a leading global organisation and their world renowned brands.

Logo Colours

The PNG files of the relevant coloured logo(s) will be sent to each learner as they certify (if further formats are required for specific uses please contact us).

Logo and Wording

The following may be used in conjunction with the above official certifications:

- ▶ Use of the relevant logo (as above) in association with the certified individual only. The logo can be used on email signatures, business cards, personal profiles and anything directly referring to the credentials of the certified individual
- ▶ The use of the relevant post nominal letters after the certified individual's name i.e. John Smith CDCDP

Please note, once the certification has expired individuals can no longer use either the logo or the post nominal letters until they have re-certified (each certification lasts for three years).

If you have any queries about the use of the logos or post nominal letters you can contact us on:

Tel: +44 (0)1284 767100 or Email info@cnet-training.com.

Certification and Re-certification

Certification proves that an individual has completed the learning process and achieved the stated objectives. It can prove essential as part of a career portfolio and will enhance credibility with current and future employers.

Certifications are unique as they show a commitment to life-long training, they offer the perfect portal to ensure knowledge, skills and certification remain current and up-to-date. Each certification gained from CNet Training requires re-certifying every three years. We have designed an on-line system that allows re-certification to be undertaken quickly and easily.

Why re-certify your skills:

- ▶ Ensures you are aware of the latest standards and codes of practice
- ▶ Ensures you can continue to use your post nominal title i.e. John Smith CDCDP
- ▶ Provides you with an updated digital badge for a further three years
- ▶ Provides you with access to the latest program material
- ▶ Provides certification of your status for a further three years
- ▶ Provides new learning to bring your knowledge up-to-date with the very latest changes and technical developments within the industry

CNet Training have designed and developed a simple on-line re-certification process. We utilise a Learning Management System (LMS) allowing learners to log on and undertake the re-certification at a convenient time and place for them. The process not only provides further learning, allowing learners to update knowledge and re-certify skills, on successful completion it also provides access to the program material detailing the very latest technical information that you can refer back to time and time again .

For more information about the re-certification process please contact us on:

Tel: +44 (0)1284 767100 or Email recertification@cnet-training.com.
