Certified Network Cabling Installer (CNCI) Programme

Dear Martin

Mini5/6 recognises and endorses the CNet CNCI programme as being a valuable contribution towards driving standards upwards in the network cabling industry.

Installation companies whose engineers have successfully completed the CNCI course will be able to apply to become a Mini5/6 approved cabling partner without having to complete a Mini5/6 installer training programme. Mini5/6 approved cabling partners are able to offer the Mini5/6 25 year system warranty on all registered installations

For further details on the Mini5/6 range please see www.mini5.com

Yours sincerely
