

The CNet team would like to reassure customers that it is constantly following Government advice and has put in place the following additional safety measures for classroom-based network infrastructure programs.

Class Sizes, Deep Cleaning and Social Distancing

- ▶ Social distancing will be maintained throughout all programs
- ▶ Class sizes have been reduced to:
 - Maximum 8 learners for the Certified Network Cable Installer (CNCI®)
 - Maximum 6 learners for Certified Integrated Infrastructure Technician (CIIT®) and the Certified Outside Plant Technician (COPT®)
- ▶ Each facility will be professionally deep cleaned with fogging and decontamination
- ▶ All desks and workstations will be at least 2 metres apart
- ▶ Each learner will have their own dedicated workspace
- ▶ Teaching and demonstration methods have been modified to ensure social distancing is maintained
- ▶ Breakout and lounge areas will be set up to adhere to social distancing requirements
- ▶ Break times will be staggered to minimise learner interaction between classes
- ▶ All practical exercises have been modified to ensure social distancing is maintained
- ▶ **Learners must bring their own food and refreshments**

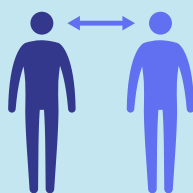

Tools, Equipment and PPE

- ▶ All workstations, tools and equipment will be fully sanitised after each class
- ▶ All tools and equipment will be issued and dedicated to individuals for the duration of each program (as applicable):
 - PPE
 - 1 x Fluke test equipment platform (DSX-5000/8000, Smart Remote Unit, DSX-5000/8000 Modules (copper), Certifiber® Unit, Optifiber® Unit, Fibre Inspector, Test Leads, Adapters)
 - 1 x Fibre Optic Fusion Splicer
 - Dedicated hand tools per person
 - Dedicated consumables kit per person
- ▶ PPE per learner on every class:
 - Disposable Gloves
 - Safety Glasses
 - Hand Sanitiser
 - Anti-bacterial Wipes
 - Face Masks
 - Disposable Aprons

We respectfully ask all customers to adhere to the following safety measures at all times

Use the PPE provided

Stay at least 2 metres away from others

Cough or sneeze into your elbow, or into a tissue and dispose of it straight away

Avoid touching your face

Regularly sanitise your hands, especially before and after using tools and equipment
