**Endorsement: CNet Certified Network Cable Installer Program (CNCI)**

Dear Mr. Hawkins

Huber+Suhner through its renowned Data Center Certified Training (DCCT) and Global Certified Trainer Network (GCTN) programs deliver to attendees in modules, the technical knowledge in both theory and practical required to competently and confidently install our products in accordance with the relevant standards.

The CNCI certification provides a level of knowledge which ensures attendees are qualified to work to the correct cabling standards and follow the recommended codes of practice when undertaking cable installation projects.

With this recognition, Huber+Suhner is pleased to endorse the Certified Network Cable Installer program (CNCI) as an acceptable prerequisite to attending our product specific only training.

Yours Sincerely

Denon Amen Osunde
